

Silicone Spray

For the Lubrication and Protection of Metal-to-Nonmetal or Nonmetal-to-Nonmetal Surfaces.
Leaves No Oily Residue.

AMSOIL Silicone Spray protects with a dry lubricating film ideal for surfaces that may be damaged by conventional lubricants such as grease or oil. AMSOIL Silicone Spray also helps prevent the cracking and drying of rubber, displaces water and makes an excellent mold release lubricant.

AMSOIL Silicone Spray provides outstanding protection for applications where light-duty or silicone lubricants are recommended, including plastic slides, belts, guides, rails, conveyors, mold releases, punch presses, pizza ovens, gym equipment, bakery equipment, sporting equipment, ignition systems or any metal surface that contacts plastic, nylon, rubber, cardboard, fiberglass or wood.

AMSOIL Silicone Spray features a special nonstaining formula, making it excellent for waterproofing leather boots, shoes, jackets, suede and more.

AMSOIL Silicone Spray is U.S. Department of Agriculture H-1 rated and authorized by the USDA for use in federally inspected meat and poultry plants.
